Cloudwork Account Provisioning

Introduced in 2013

**Processing thousands of
accounts everyday**

Cloudwork Account Provisioning

Continuous improvements:

- **Simplified workflows**
- **Automated message processing**
- **Granular data mapping**
- **More schools – deep experience**
- **Improved data integrity**
- **Improved auditability & responsiveness**

Cloudwork Account Provisioning

Solid performance:

- **Secure**
- **Reliable**
- **Flexible**

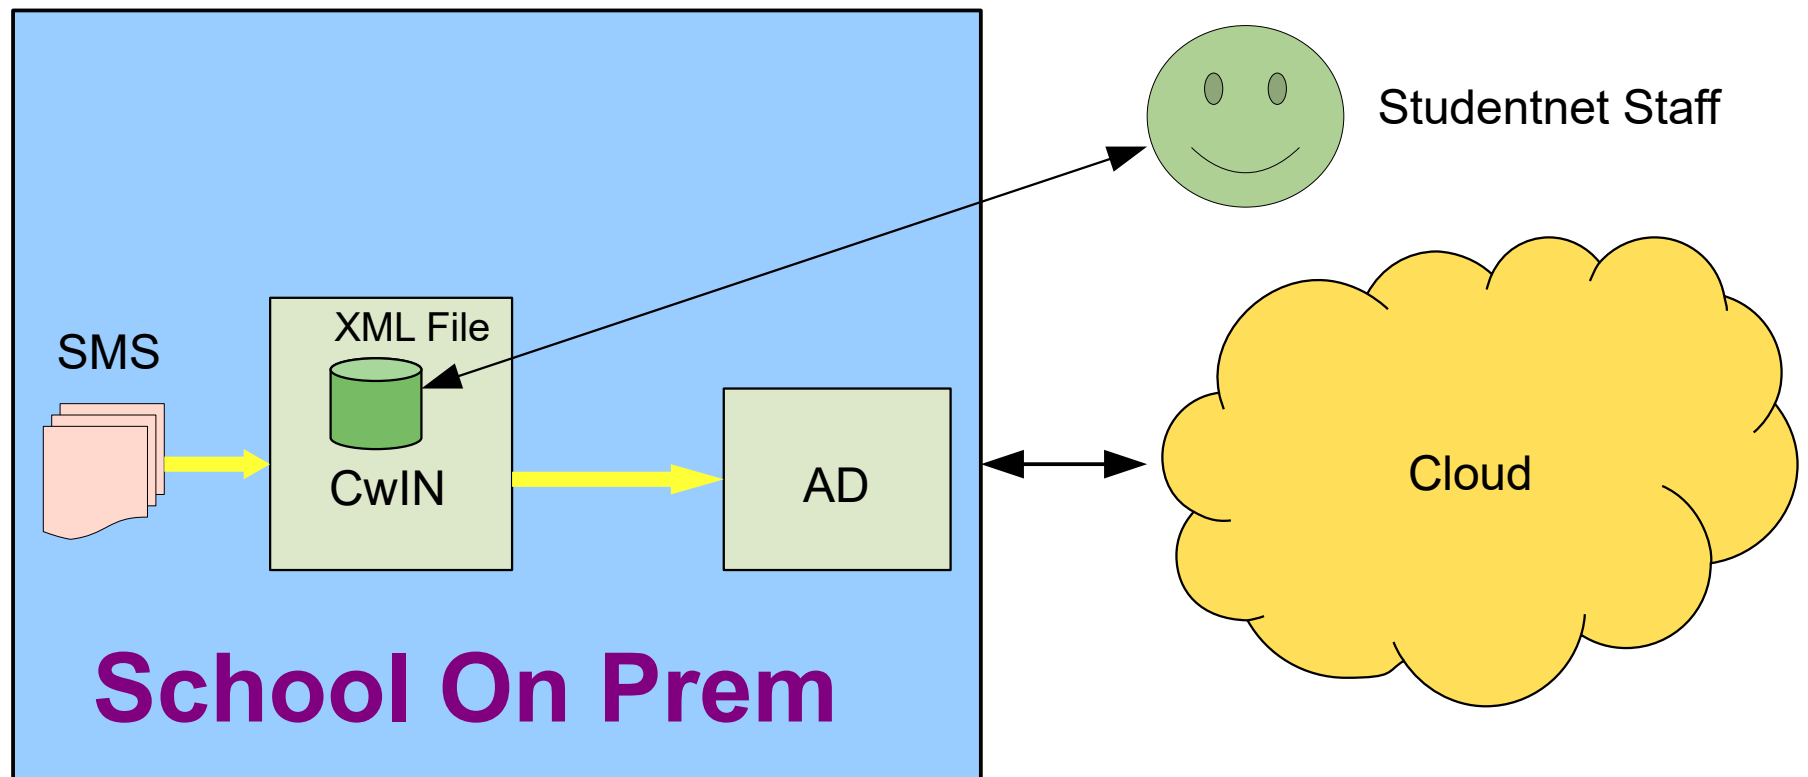

Cloudwork Account Provisioning

Data Mapping & Configuration:

- **On premises VM**
- **Cloudwork Identity Node(CwIN)**
- **XML file**
- **Black Box**

Cloudwork Account Provisioning V36 Architecture

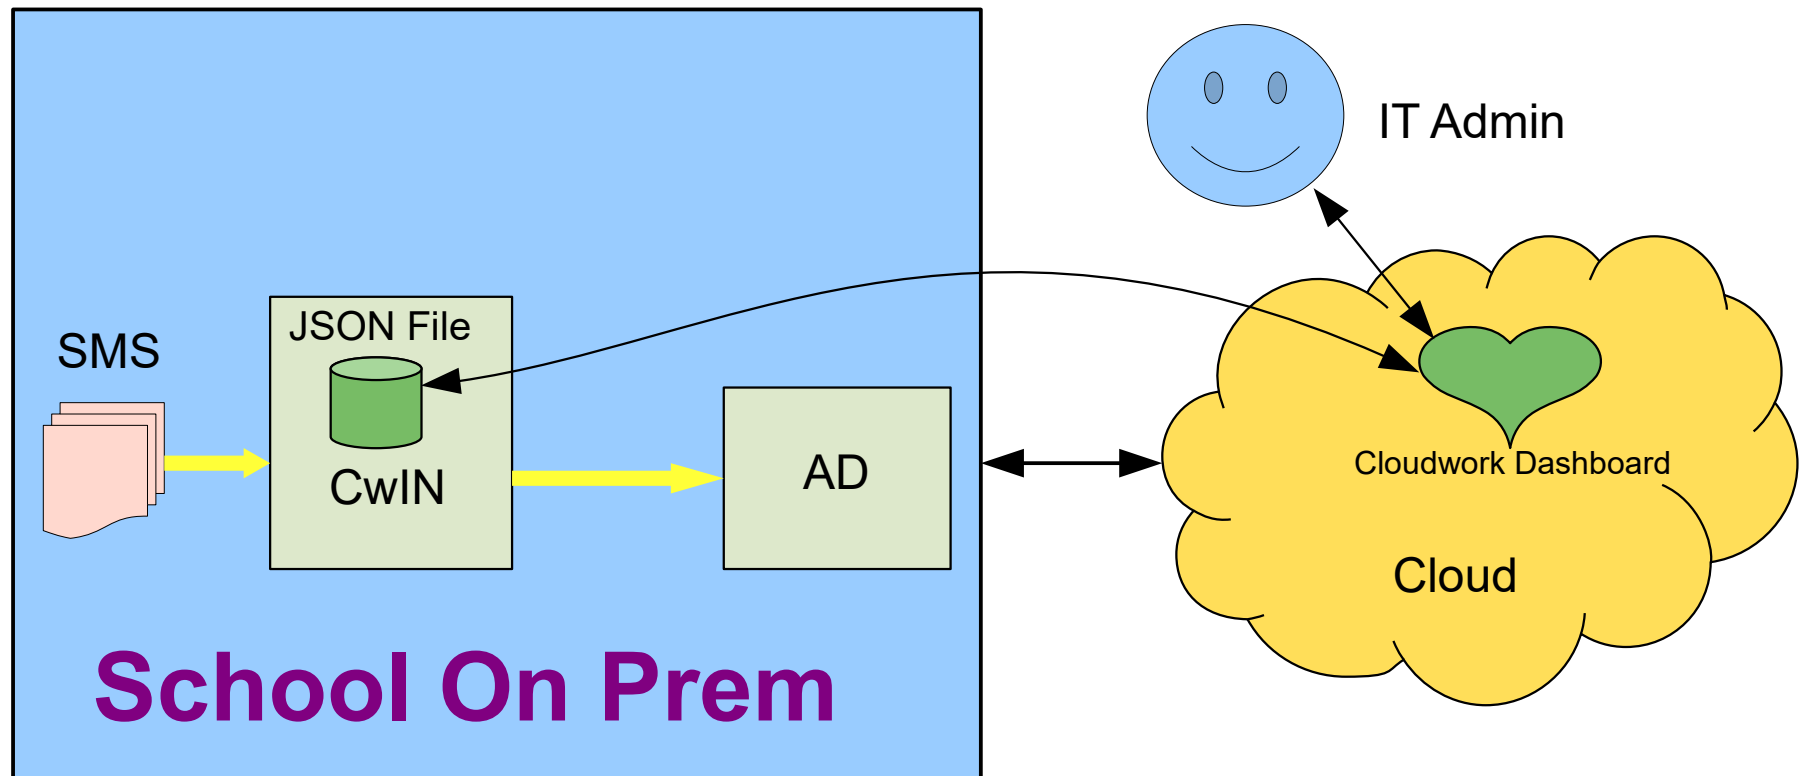

Cloudwork Account Provisioning

Data Mapping & Configuration:

- **Detailed exercise**
- **Policies may need to be determined**
- **Reveals quality of data**
- **Multiple iterations**
- **Arms length**
- **Lacks Visibility & Control**

Cloudwork Account Provisioning V37 Architecture

Demonstration

- **David Robertson**
- **drobertson@studentnet.net**

V37 Improvements

- **Visibility**
- **Flexibility**
- **Control**
- **Responsiveness**
- **Logging & Auditability**

Next Webinar - October

- **Access Federations**
- **Library Systems**

Thank you
